

# Building protection

## How does it work

### Protected building

The building is equipped with an alarm and under the surveillance of the Jablotron Emergency Line.

### Building intrusion

In the case of an intrusion alarm, detectors instantly send a signal to the Jablotron Emergency Line.

### Jablotron Emergency Line

Trained operators immediately inform the customer and dispatch an Intervention Unit.

### Intervention

On average, the team reaches the building under surveillance within 10 minutes. In the case of an incident, the Czech Police is informed as well.

## Advantages

- Continuous surveillance 24/7
- Dispatch of the Intervention Unit
